

# Mortada Ismail Almosawi

## PROFILE

An energetic 31-year-old man, recently graduated as a software engineer, who daily takes pleasure in seeking new knowledge. I am motivated by the challenge of solving complex problems through coding, which is why I have chosen the software technology track. From my time as a dance instructor, I learned how to lead and maintain my head cool in stressful situations and also how to work together as a team, which I have used a lot in different projects.

### Telephone

+4531430502

## QUALIFICATIONS

TypeScript	JavaScript
Java	Python
Angular	ReactJS
Flutter	Kotlin
C	C++
C#	SQL
.NET	

## LANGUAGE

Danish - Native

## EDUCATION

**Software technology** • AU AarhusUniversity

*Professional bachelor*

Dec 2018 - Jan 2024

Through my education, I have gained a broad and solid basic knowledge in mathematics, physics, signal processing and both analogue and digital electronics. I have developed in-depth skills in programming, system development, software design and testing, as well as development processes and modern software technologies. My education has also given me insight into innovation and environmental aspects of software development.

I have learned to apply my knowledge to develop new and innovative software solutions, select and implement optimal technological solutions for specific problems, and put these solutions into operation. I can effectively communicate complex technical issues and solutions to both technical and non-technical stakeholders.

I have strong skills in process and project management, and I am able to work both innovatively and developmentally in software-related projects.

## WORK EXPERIENCE

**Software Intern** • Develvo Product

*Tangen 6, 8200 Aarhus N*

Feb 2022 - Jun 2022

 English - Fluent  
 Arabic - Fluent

## HOBBIES

- Taekwondo
- Programming
- Gaming
- Family

## COMPETENCES

- Meeting Stable
- Conscientious
- Teamwork
- Conflict Management

Work:

- Import and export of data in csv file in C
- Upgrading of old user interface
- Java-programming
- data handling in html
- junit xml
